REF.NO. 0301

   Ø TELECOM ENGINEER

QUALIFICATION: BE (Electronics & communication) Engineering

EXP: 3 Years

PROFESSIONAL SKILLS :

- Ø Well versed with MS Office, Operating system: Windows XP/7
- Ø Basic knowledge of C & C++ Language

AREAS OF INTEREST :

- Ø Signal and System
- Ø Digital Electronics
- Ø Electronics Device and Circuits
- Ø Telecom

RESPONSIBLITIES:

PROJECT NAME: NOKIA { AIRTEL 2G, 3G}

- Ø Installation & Alignment of NOKIA FLEXI HOPPER MW. Antennas of size 0.6.
- Ø Installation & Commissioning of 2G, 3G NOKIA FLEXI & NOKIA ULTRA BTS.
- Ø External Alarm Testing.
- Ø VSWR Measurement by using the site Analyzer (Bird).
- Ø AT OF SITE.
- Ø RFI SURVEY,RF(NEW TOWN SUREY) SURVEY,LOS SURVEY,EMF SURVEY

REF.NO. 302 IT
  Ø SOFTWARE ENGINEER
     QUALIFICATION: Bachelor of Technology in Information Technology
 EXP: 5 Years

TECHNICAL SKILLS

Languages: Java, C

JAVA/J2EE Technologies: Java

Databases: MySQL, SQL 2005

Web/Application Servers: Apache Tomcat7.0,

IDE/Development Tools: Net Beans

Web Technologies: HTML,WORDPRESS (PHP),Ajax,Javascript,CSS.

Operating Systems: Windows 7, Windows XP.

Job Responsibilities:

   Ø 5 Years of experience in developing and designing of Web Based
      Internet/Intranet using latest technologies and various open source
      frameworks.
   Ø Hands-On Experience in designing, developing and deploying applications
      using Web technologies including HTML, Wordpress (PHP).
   Ø Have Basic Knowledge in designing, developing and deploying applications
      using Java technologies.
   Ø Hands-On Experience with Integrated Development Environment IDEs like
      NetBeans.
   Ø Have Basic Knowledge in databases such as MySQL and SQL Server
      2005 .
   Ø Have Good Knowledge in Client Side Designing Such As HTML,CSS.
   Ø Good At Technical, Analytical, Problem Solving skills, strict attention to
      detail and ability to work independently, work within a team environment.
   Ø Have Good Knowledge of Object Oriented Programming Language
      (OOPS).
   Ø Have Basic Knowledge of Software Testing.

REF.NO. 303 IT
  Ø Software Engineer
QUALIFICATION: B.Tech   JNTU

EXP: 8.5 Years

TECHNICAL SKILLS :

MicroStation V7 and V8, Autocad Map, Arc Map 9.3, SSK (Stereo Softcopy Kit), Rolta
Photogrammetry Mapper (RPM)
Programming Languages : C#.Net and HTML
Operating Systems   : Windows

PROJECTS HANDLED

Project: NORWAY PROJECT, Environment: SSK, Micro station V8
  Ø The scope of the project is generating the planimetric and topographic using aerial
     photographs. The main objective of this project is digitization of Plannimetric features
     like Structural,   Transportation,Utilities, Hydrology and Miscellaneous Features.
     Topographic features like Break lines and mass points from oriented Aerial Photography.
     DTM was created using mass points and breaklines. The final Products are Checked in all
     Aspects and delivered to client.
  Ø **Responsibilities: TEAM LEAD**

Project: KITCHENER Environment: Micro station, SQL Oracle
  Ø The City of Kitchener is a city in southwestern Ontario, Canada. The City of Kitchener
     covers an area of136.86 square kilometers. We have to convert GAS and WATER
     Network. Based on client requirements, we capture the gas network from raster
     usingMicro station J and import in to Arc map. Study work on Clientspecifications and
     guideline. Making estimations of the work &fully involved in Project Steering Team.
     Doubt clarifications, Timeestimation, Job allocation and Quality Control of digitized
     drawings, Inventory, Geo referencing, Digitization. Quality analysis of the data captured
     according to client's specifications. Teamco-coordinator to provide technical support on
     theproduction floor.
  Ø Responsibilities: Production, Quality Checking.

Project: AT&T Facility Cleanup Environment: AutoCAD, DMT, OptiNT
  Ø The main aim of this process is fixing the errors in client providedcustomized
     application DMT and OPTINT. Optint is software which ishaving backend as an
     AutoCAD and front end is Customized OPTI.DMT isa web based application
     lists out errors like sourcing, Footage COand all cable attributes as per the
     specification given by theclient. It has several tasks. Each task involves
     different features.T-1:Finding the correct address for the terminal T-3: Correct
     thesourcing of cables, its description and size T-5: Terminal, Load Coiland
     Repeater sourcing (pair counts) T-7: Terminal Footage to CO T-8:CLLI
     (Common Language Location Identifier) CodeT4, T6 are QC for T3and T5
     respectively
  Ø Responsibilities: Production., Quality Checking.

REF.NO. 304 IT

Ø Application Lead/Sr.Oracle Apps DBA (Software Engineer)

QUALIFICATION: B.Sc. (Computer Science & Engineering) E-MBA from ICFAI

Certifications

Ø OCP (Database 10g) from Oracle University

Ø ITIL Foundation V3 Certification from ITSM, Completed 35 hrs PDU's for PMP^R.

EXP: 12 Years
